NOS PRINCIPALES DIFFICULTÉES

Commencement

- Compréhension du sujet
- Par quoi commencer ?
- Génération du plateau

Organisation

- Rigueur
- Ne pas penser assez loin

NOS PRINCIPALES DIFFICULTÉES

Clarté et Modularité

- Faire preuve d’ingéniosité dans la structure du code
- Faire des méthodes utilitaires pour simplifier le code

Interprétation et Équilibrage

- Interprétation des règles du jeu
- Équilibrage du jeu pour que ce ne soit ni trop facile, ni trop difficile

MERCI !
